

BRITTEN SCHOOL

Dear Parent/Guardian,

School to parent communication is a vital tool in the process of successful education for all students. It is Britten's initiative to keep parents informed of school events and emergency closings. For this reason, an electronic messaging service called ParentLink will be utilized to record and send messages to parents via phone (text and voicemail) and email. The ParentLink communication offers these main services to Britten School. These services are:

1. In addition to the standard radio and TV notification systems already in use, ParentLink will be utilized to inform parents if there is a school emergency, such as a building closure due to inclement weather.
2. ParentLink will also be utilized to inform parents regarding school events that are focused on increasing family involvement at school functions. Events such as Parent-Teacher Conferences and Book Fair are examples of school events that will be promoted using ParentLink messaging services.

We will require the means that you wish to be contacted; such as, home phone, cell phone, and email. Parent/guardian may select one or all three means of contact. Once the parent/guardian has provided Britten School the contact information, it will be placed in the ParentLink system. In the future if there is a school closing or an event reminder the message will be broadcasted to you via your cell phone, home phone, and/or email.

Student Name	Parent/Guardian Name	Home Phone	Cell Phone	Email Address
