

BRITTEN SCHOOL
AUGUST 2023- AUGUST 2024

CHECK FOR CONTRABAND MATERIALS

In the interest of student and faculty safety, Britten School conducts searches, which take place on a random or scheduled basis. They occur in response to information faculty receives either from parents/guardians, other students, district or cooperative representatives, or transportation providers.

Lockers, desks, and book bags may be searched. Also, students' clothing may be checked for materials that are unsuitable for the educational environment. A faculty member conducts searches in a manner respecting the student's privacy. **No body searches are conducted.**

I, _____, understand why and how searches are conducted, and in the interest of safety authorize the faculty of Britten School to perform a search of any property my child uses/owns/wears.
