

BRITTEN SCHOOL  
AUGUST 2026- AUGUST 2027

CHECK FOR CONTRABAND MATERIALS

In the interest of students' and faculty's safety, Britten School conducts searches on a random, scheduled, or special-programming basis. They occur in response to information the faculty receives either from parents/guardians, other students, the district, cooperative representatives, or transportation providers.

Lockers, desks, and book bags may be searched. Also, students' clothing may be checked for materials that are unsuitable for the educational environment. A faculty member conducts searches in a manner that respects the student's privacy. **No body searches are conducted.** Personal possessions that are confiscated will only be returned to the parent/guardian; items not collected will be disposed of at the end of each semester.

I, \_\_\_\_\_, understand why and how searches are conducted, and in the interest of safety, authorize the faculty of Britten School to perform a search of any property my child uses/owns/wears.
